

## CUTX LUCKYCUT X4040 FOR LIGHT TO MEDIUM CUTS

### Our smallest safety knife

Enter the world of safety knives with the CUTX LUCKYCUT X4040. Our smallest safety knife is perfect for occasional use and fits in any pocket. The fixed blade is tapered to a point, making it easy to pierce and cut through most materials.

The CUTX LUCKYCUT X4040 does not compromise on safety. Automatic blade retraction ensures that the blade automatically returns to its safe position in the handle when the slider is actively released. The large eyelet at the end of the handle makes it quick and easy to attach a hanging cord.

### Highlights

- the pocketknife of safety knives
- for occasional use
- for light to medium cutting work
- with fixed blade
- with hanging loop

### Sustainable

At CUTX, we are proud to do our part. All safety knives in our standard gray range are made from 95% recycled plastic. By using renewable energies and short transport routes to our local partners, we guarantee the conservation of valuable resources.

Our CUTX Safety Knives are designed to be optimally prepared for the recycling process. We have deliberately minimized the variety of raw materials used and have eliminated two-component plastics that prove difficult to separate. This allows for an easy separation of materials that can be reused in the production of new plastics.

You too can be part of this sustainable initiative. Send us your used CUTX Safety Knives and we will recycle them properly.

### Printing and special colours possible

Our items are also available in your favorite colours. In addition, they can be printed, so that you have here an excellent and individual advertising medium, which your customers will certainly take at hand again and again.

### Security certificate

GS certificate:

Nr. 187282 - 7851 - 13737 - 2023

Date of issue:

19.10.2023

applies to:

Art. 3010157

### Dimensions & details

Knife weight:	22 g
Blade dimensions [L x W x H]:	115 x 26 x 10 mm
Cutting depth:	9 mm
Base material:	Plastic
Safety class:	BASIC automatic blade retraction

### Variant:

**Art. 3010157, grey-black**  
GTIN: 4251946400348

Packaging unit:

Single packaging

Dimensions single box [L x W x H]:

117 x 28 x 13 mm

Weight of packaging unit:

26 g

### Variant:

**Art. 3010205, grey-black**  
GTIN: 4251946400713

Packaging unit:

box of 25

Dimensions outer box [L x W x H]:

152 x 124 x 70 mm

Weight of packaging unit:

691 g

### Other variants:

# Technical information

## Safety knife CUTX LUCKYCUT X4040

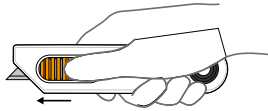

### blade change

Disposable cutter: no need to change blades - no risk of injury!

### Safe handling

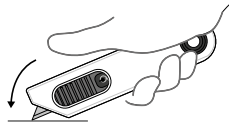

Push out the blade, position it, release the slider. The automatic blade retraction ensures that the blade slides back into the housing automatically as soon as the blade leaves the material being cut.

①

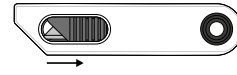

Slide out the blade

②

Fit the blade and  
release the blade holder

③

At the end of the cut, the blade  
holder springs back into the end  
position

### Safety instructions

Please read the instructions carefully and keep them in a safe place so that you can use our cutting tools safely for a long time.

The product is only authorised for manual cutting work and must not be used for purposes other than those for which it is intended. Care must be taken to ensure correct handling and use.

Avoidance of injuries: Please only use cutting tools that are in perfect condition and have a sharp and undamaged blade. You should exercise caution when handling the product. It is therefore essential that you familiarise yourself with its operation and function beforehand. The sharp blade can cause serious cuts. Therefore, never reach into the blade, do not place your second hand in the cutting path of the blade and always cut past the body. Replace blunt blades in good time and dispose of them properly.

Secure the blade to avoid injury and store the blade in a safe place.

Keep the CUTX safety knife clean and do not expose it unnecessarily to dust, dirt and moisture to ensure a long service life.

**No liability is accepted for consequential damage.**

**Subject to technical changes and errors!**

**This product should not be used by children!**
